

# VUZIX M400C™

## The Ultimate Peripheral

**Connect and control other devices** with one convenient wearable.

If IT approvals are a challenge, the M400C **fits into your current ecosystem** without incurring any IT burden.

At just **68 grams**, this feather-weight device is built for all day comfort

**Eliminate extraneous equipment** and keep the information you need right in your eye with the Vuzix M400C. It's the ultimate peripheral.

# VUZIX M400C™

## Key Differentiators

- Intrinsic security – For high security environments, the M400C causes no IT overhead because it connects directly into clients' already approved mobile ecosystem. It's total endpoint device management.
- Device consolidation – The M400C allows users to truly keep phone in their pocket. Control several devices such as phones, hand-helds, or external equipment through a hands-free wearable.
- Infinite use – M400C is completely powered by the connected device so there is no other additional devices to charge.
- Ultralight – no battery means this unit is ¼ the weight of the latest edition competitive product, and about 1/6 the weight of the leading competition

## Compatibility

- Dedicated PCs or devices like Dynabook dynaEdge DE-100 and DE-200
- Any Android phone with USB-C DisplayPort Alternate mode, including: LG V50, 60; Galaxy S9, S20, S21; Motorola Edge Plus; Sharp Aquos R5; Sony Xperia 1, 1V

## Available Apps

- Clients can quickly modify almost any app to function with the M400C
- Using our SDK, clients can easily take advantage of all peripherals
- Keep hands free by sharing your device or phone using simple screen mirroring on your M400C

## Devices the M400C Can Replace

- External or handheld monitors, such as the OR stack, or iPads
- Camera or other hand-held recording devices
- 2-way audio devices

## Target Audiences

- Organizations where IT security is an obstacle, or that have challenges with managing devices, but need a new way to manage other devices in one place.
- Companies that can build a custom app to leverage the power of a wearable to improve efficiency.

Rated for protection against the effects of immersion in 1m of water for 30 minutes

Rated for protection against a 2 meter drop onto a solid surface.
